

Homework

Fifth graders have homework every night. Homework gives students the opportunity to practice and reinforce the skills and concepts presented in class. The following process will teach the students responsibility, help them complete work in a timely manner and keep parents informed of their child's progress.

- Students are encouraged to utilize class work time wisely.
- On a daily basis, students are expected to write assignments in their assignment notebook. The assignments will also be posted on the LCS website.
- Parents should sign the notebook after seeing the completed work.
- Teachers will inform parents if there is a pattern of unsigned notebooks, incomplete assignments, or inconsistent quality of work.
- To develop good study skills, students receive study guides and/or review materials several days in advance of quizzes and tests.
- Quizzes, tests and other major assessments will be sent home to be signed by a parent.
